## Appeals Criteria

I am requesting a special permit to operate a part-time Chiropractic practice out of a converted garage on the property of my current residence. My husband inherited the property at 102 Mammoth Spring Rd. after the passing of his mother in 2023. It had also been the home, farm and business of his maternal grandparents since the 1940's. We would like to keep the land in our family and continue the family's legacy of an operating farm business.

In terms of my special permit request, here are the facts and my goals. I have been a practicing chiropractor for 28 years and am currently seeing about 16 patients a week. I treat only one patient per hour. The office would be part of an already existing garage structure that would also house a farm stand to sell things we produce on the land and other local products. The office space will be 235 square feet once completed. There be no additional employees other than my family who already resides here. Ample off-street parking already exists on the property to accommodate patients. I would like to have a small sign on the exterior of the building.

This business will not affect the rural character of the neighborhood and will not noticeably add to traffic flow. This home-based Chiropractic practice aligns with the North Greenbush 2009 Comprehensive Plan which encourages low impact economic activities, such as home based businesses, to support resident's livelihoods while preserving the town's rural and residential character. The part-time office provides accessible healthcare services addressing the plan's goal of enhancing community well being. Its discrete operation within an existing building insures no change to the visual or functional character of the A-R district.
